

# Immediate availability of high-quality marine rope in West Africa

**Fendercare Marine supplies a variety of high-quality, strong, reliable and durable marine rope, ideal for use in demanding environmental conditions and a wide range of mooring and towing applications.**

Our fully equipped base in Lomé has a large stock of Oceanmoorflex rope and tails readily available to support your immediate equipment needs in West Africa, which can be delivered direct to a vessel up to 10NM offshore.

All rope currently held in stock is a Polypropylene / Polyester mix, 8 strand providing a higher breaking strength and increased abrasion resistance, as well as lower elongation with dimensional stability.

## **Other key features include:**

- Excellent shock absorption
- Excellent shape retention – easily spliced
- UV stabilised
- No reduction in strength when wet
- Specific gravity – 0.99 floats
- No water absorption
- Orange with black and red tracer yarn to strands
- Excellent chemical resistance to acid
- Supplied with protected eye each end
- Certification – Germanischer Lloyd 3rd party certificate
