Fendercare Marine's global footprint allows a 24hr 365 days per year availability for all types of casualty, emergency or salvage STS operations. Our global link and network allow us to provide all elements required for the recovery of liquid and gas cargos (including bunkers and slops) minimising further pollution risks to an already difficult scenario.

Fendercare Marine is also able to support clients at very short notice, utilising our extensive partnerships from around the world.

Please do not hesitate to get in touch for any future STS support globally.
