

Ship-to-Ship location details

ARA

Fendercare Marine operates in the ARA region through 'Fendercare Benelux' – a Dutch joint venture with Burando Maritime Services, with its HQ in the port of Rotterdam.

Providing reliable, safe and prompt STS services and support, Fendercare Benelux operates in the following locations around ARA:

- Amsterdam
- Antwerp
- Flushing
- Rotterdam

Operations are conducted within port limits and not offshore.

All operations are conducted in strict accordance with the 'Ship-To-Ship Transfer Guide for Petroleum, Chemicals and Liquefied Gases'.

- All areas fully approved by local authorities
- Fully equipped STS bases – variety of hoses and Yokohama fender sizes
- Local STS Superintendent
- 24/7 operational cover for all requirements

BURANDO
MARITIME SERVICES

Burando also assists with the following port services through a unique concept which we like to call 'One Stop Shipping' – based on four key divisions: Logistics, Trade, Shipping and Environmental Services, including:

- Collection of tank washings (slops) including free water, line flush and production water disposal services
- Maritime logistics and custom services (including clearances and transport documentation)
- Efficient vapour treatment / degassing solutions for seagoing tankers, inland barges and tank storage facilities
- Over 60 state-of-the-art barges through its shipping division for a flexible, safe and sustainable transport of DPP, CPP and light chemical products
- Owns and operates an innovative and 100% double-hull bunker barge fleet for the physical supply of a wide range of fuel oil products through its trade and bunkering division
